women wwwwweiiiiiiiiiimmmmmnnnnnnn

man is a name for a human which is more than a man man is a name for a human which is less than a woman

woman is a name for a human which is more than a woman woman is a name for a human which is more than a man

who is the human being neither less nor more

the human in the woman is the man which is no one the human in the man is the woman which is unknown

the no one and the unknown come together in and in using e as a key for a bright space where to be men and women as a we

we face to face
as a mirror of the inner
let us see
it could be
more than before
cause a man is a lot of
men including women
and a woman is a lot of
women including men

seeing in women anywhere the inner woman in myself otherwhere in men seeing the man in any woman that makes me learning what i'm longing for so yearning
